

FIELD MANUAL AMENDMENTS --- JUNE 2009

Members planning to update a printed copy of the 2007 Field manual with the amendments included in the 2009 version will need to print and insert the pages listed below into their 2007 Manual. In reality all pages of the Manual have changed because the entire Manual was renumbered in 2009. The new pages inserted into the earlier Manual can be renumbered by hand to match the page numbering in the old manual.
